TELECARE FOR AGEING IN PLACE

Elderly home monitor by phone service as point-of-care for caregivers to check in on senior's health & wellness

*TACKLING ELDERLY ISOLATION,
LONELINESS
AND PROVIDING CARE THROUGH
PROACTIVE CHECK-UP CALLS*

Automated Care Engagement System is a cloud platform that generate daily automated check-in phone service that scale to serve and support the elderly, their family, caregivers and volunteers anywhere in Hong Kong.

HOME MONITOR BY PHONE AS POINT OF CARE

ANYTIME, ANYWHERE, ANY PHONE

- Designed to confirm that an elderly person is up, cognizant, and physically able to answer the phone
- Daily touchpoint (Point of Care) to remedy feelings of loneliness, mitigates social isolation and check in on senior's health and wellness
- Automated daily phone calls also serve as a check-in to see if seniors are taking their medication, grooming, and eating enough to maintain their health
- Important medication reminder
- Hospital or doctor's appointment reminder
- No setup cost with low monthly service fee
- Scalable for volunteer to deliver online telecare to further service level
